MASTER OF
SUPPLY CHAIN
MANAGEMENT
Supply chain management needs leaders who are ready to innovate. It needs leaders who know that, in our increasingly complex and interconnected world, new challenges require new ways of thinking.

At Michigan Ross, we prepare you to lead in this dynamic field. Our rigorous, STEM-certified program provides a strong foundation in end-to-end global supply chain management, while our action-based approach to learning immerses you in real business challenges. And our community? It’s full of accomplished individuals who will push you to be your best.

With the power of a Michigan Ross Master of Supply Chain Management degree, when it’s your time to lead...

YOU’LL BE READY.
READY TO CONNECT

Gain more than a world-class degree; gain a community of talented, diverse leaders who are ready to connect. Our program is made up of students from around the world, some with no work experience and others with years in business and industry. Be inspired by their insights, and be challenged to see things from their unique perspectives.

“the moment when...”

YOU GAIN THE REAL-WORLD EXPERIENCE RECRUITERS LOVE

I gained opportunities to work on live projects at organizations like Dow Chemical Co. and A.T. Kearney where I experienced a wider supply chain in action, the best business practices, and the corporate culture in the U.S., which I believe is an essential exposure for the international students to prepare for a global career after the program.”

BUSINESS FUNDAMENTALS BOOTCAMP
The MSCM Business Fundamentals Bootcamp is a rigorous introduction to all business disciplines: economics, finance, accounting, strategy, organizational behavior, marketing, and statistics. It takes place throughout the summer term and provides you with a fundamental grounding in business before you dive deep into end-to-end global supply chain management.
READY TO TAKE ACTION

Not all graduate supply chain programs are created equal. Our core curriculum is marked by meaningful activity at all stages of your experience, culminating with the Supply Chain Consulting Studio: an action-based consulting project that gives you the opportunity to solve real supply chain challenges with leading companies.

SUPPLY CHAIN CONSULTING STUDIO
The Supply Chain Consulting Studio combines academic theory with real-world application. During the course, small teams are paired with a corporate sponsor to tackle a supply chain-related project within their company. Projects reinforce elements of your classroom instruction, resulting in a keen understanding of both the theory and practice of comprehensive supply chain strategies.

EXAMPLES OF PREVIOUS PROJECTS

› Inventory process improvement project with Avis Car Rental

› Blockchain/machine learning business model project with Dow Chemical Co.

› Supply sourcing efficiency project with General Motors

› Employee scheduling and logistics project with Radial

“Supply Chain Consulting Studio is a consulting platform where students can transform the classroom knowledge into practical solutions and actions that can drive changes in the value chain. We partner with leading global companies, including Google, Toyota, Dow, Radial, Estee Lauder, and tackle a wide range of problems on digital transformation, data science, logistics network optimization, and strategic sourcing.”

“the moment when...

YOU’RE READY FOR RECRUITING

Ross fits a lot of really valuable work into a short period of time, and they do a fantastic job setting up people with recruiters. For example, recruiting starts on day one, and most of the program meets with the Career Development Office biweekly for interview preparation.”

Ann Arbor, Michigan, consistently ranks as one of the best places to live in the United States. Hundreds of startups call this city home, largely due to its entrepreneurial spirit, intellectual drive, and creative energy. Ann Arbor is also rich in entertainment and culture, home to an amazing food scene, and offers countless opportunities for indoor and outdoor adventure.
Our MSCM program is just 10 months, but you'll be an alum — and a Wolverine — for life. The Michigan Block M is one of the most recognized symbols in higher education and a “Go Blue!” at the end of an email pretty much guarantees you a response.

If I want to learn more about a function or opportunity at a certain company, there’s always someone from Ross that can connect me to that company.”
