As part of the Zell Lurie Institute, I worked with a team of peers to compete in the Michigan Investment Challenge. This hands-on experience working with real venture capital and founders helped my team to place second in the regional competition against other business schools, and prepared each of us to work in venture-related roles for our internships.”

“MAP was one of the main reasons I chose to do my MBA at Michigan Ross. During my seven-week project, I consulted for Voestalpine Railway Systems, a global market leader for railway infrastructure. MAP broadened my knowledge of both manufacturing and technology process improvements and helped me better understand the future of mobility and some of the most important developments that will bridge the gap between hype and reality.”
