MASTER OF **ACCOUNTING**

Gain invaluable leadership leverage with the eight-month, 30-credit-hour MAcc Program. This full-time residential program kicks off in August with a week in Washington, D.C., at the EY Accounting and Public Policy Symposium.

The STEM-designated curriculum offers comprehensive accounting and cross-functional business electives taken alongside MBA students, plus the option to add an accounting analytics concentration that empowers students to navigate vital aspects of business strategy. Our graduates accept positions around the world and have long-term careers in fields ranging from public accounting to management consulting and investment banking.

Curriculum

MASTER OF **BUSINESS ANALYTICS**

Master data analytics and business fundamentals with the 10-month, 35.75-credit-hour MBAn Program. This full-time residential program is STEM-designated, and courses begin in June.

Challenge yourself with a rigorous data-focused curriculum and solve real-world challenges in the Business Analytics Consulting Studio. Graduates of this program are prepared to solve business challenges with complex data and be the impactful, data-driven leaders today's companies demand.

Curriculum

MASTER OF MANAGEMENT

Jumpstart your career with the 10-month, 35.75-credit-hour MM Program. This full-time, residential program is designed for non-business majors who have completed their undergraduate studies less than two years ago.

The program starts in June and offers fundamental business courses and leadership training, including solving real-world challenges in the Management Consulting Studio. Students experience purposefully designed career preparation to leverage their undergraduate education along with their newly acquired business acumen, helping them stand out in a competitive job market.

Curriculum

MASTER OF SUPPLY CHAIN MANAGEMENT

Gain a deep, strategic understanding of supply chain management principles in the 10-month, 30-credit-hour Ross MSCM Program. This full-time residential program, which starts in June, is STEM-designated and open to students with all levels of experience.

It offers comprehensive coursework focused on end-to-end global supply chain management, including solving real-world challenges in the Supply Chain Consulting Studio. Graduates use their sharpened leadership and data analytics skills in dynamic careers spanning all facets of supply chain management.

Curriculum

READY TO LEARN BUSINESS BY DOING BUSINESS

Not all graduate programs are created equal. Our core curriculum is marked by meaningful activity at all stages of your experience living out the Ross commitment to action-based learning.

CONSULTING STUDIO: MBA_n, MM, AND MSCM

In small teams, your class will partner with real companies from across the nation to solve current business issues. Maybe you'll help a nonprofit expand its services, develop a marketing plan for a start-up, advise an acquisition strategy, or tackle an operations challenge. The Consulting Studio is your chance to gain the experience you need to stand out and hit the ground running.

LUCID

EY ACCOUNTING AND PUBLIC POLICY SYMPOSIUM: MA_{cc}

Begin your journey in the nation's capital during MA_{cc} orientation at the EY Accounting and Public Policy Symposium. This mashup of cohort building and exploration of the intersection of public policy and business is uniquely Ross. The course includes a series of meetings with Washington insiders who shape accounting-related policy. With updated speakers every year, the EY Symposium will expand your understanding of the real-time complexities surrounding policy setting and give you an edge as you prepare to begin your accounting career.
